

Pledge of support for the World Sepsis Declaration

As a responsible officer for Polish Society of Anaesthesiology and Intensive Therapy (PTAiIT), I, the undersigned, confirm my organization's commitment to the ideals and goals of the World Sepsis Declaration ('the Declaration') as published in March 2012.

My organization shall undertake an assessment of contribution to each of the five domains set out in the Declaration for the population we serve, namely:

- Reducing sepsis incidence through prevention
- Improving survival for children and adults
- Raising public and professional awareness and understanding of sepsis
- Ensuring improved access to rehabilitation services
- Creating and maintaining sepsis incidence and outcomes databases

Where necessary, achievable and appropriate, my organization will set targets appropriate to its remit and divert resources to meeting those targets. Our members and staff will be encouraged to initiate and contribute to events in support of World Sepsis Day on September 13th 2012.

I give permission for my organization's name to be publicized by the GSA as a valued supporter of the World Sepsis Declaration.

Sincerely,

Prof. Dr Maria Wujtewicz

June 24th 2012

President PTAiIT
