Please note that the **EDAIC Part I and ITA** registrations are open until **29 April 2015**.

The Candidates should register as soon as possible because the examinations seats get booked very quickly.

In order to be fair to all candidates, the ESA office needs to be strict with the registration deadline, and each candidate is responsible for registering on time. **Once a centre is fully booked, it cannot be overbooked.**

Please note also that in order to register online, **each candidate has to create an ESA website user profile first and this profile needs to be processed by the ESA office before the candidate can actually register**; this process usually takes 1-2 days unless the profile is created on a Friday or a Saturday, in which case the delay is of 3-4 days.

EDAIC Part I registrations must be made here:

http://www.esahq.org/education/edaic/exam-types/part-i-examination/online-registration-for-part-i-examination/

ITA individual registrations must be made here:

http://www.esahq.org/education/edaic/exam-types/in-training-assessment/online-registration-for-the-in-training-assessment/

We truly hope that all candidates will find the new online registration forms user-friendly and will be able to register in time for the centre they want.
